

TIMBERLOOK SLIM-SASH PVC-U BI-FOLDING DOORS

Almost all PVC-U bi-folding doors are made from bulky door profile and have ugly face fixed hinges.

Timberlook Slimline Bi-Fold Doors combine hi-strength PVC-U & Aluminium profiles which achieve the sight lines of an aluminium bi-fold with the cost effectiveness of PVC-U profile.

- **Timberlook Slimline Bi-Fold Doors** replicate timber sections with an ovolo profile.
- **Timberlook Slimline Bi-Fold Doors** have high security hardened steel hook locks which prevent the hinge being forced from the door.

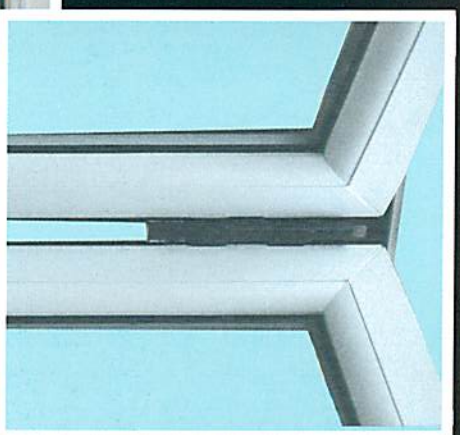

Full range of woodgrain colours in stock

Fir Cream Chartwell White Irish Oak Grey Black
Green Green Antique Pine (Ebony)

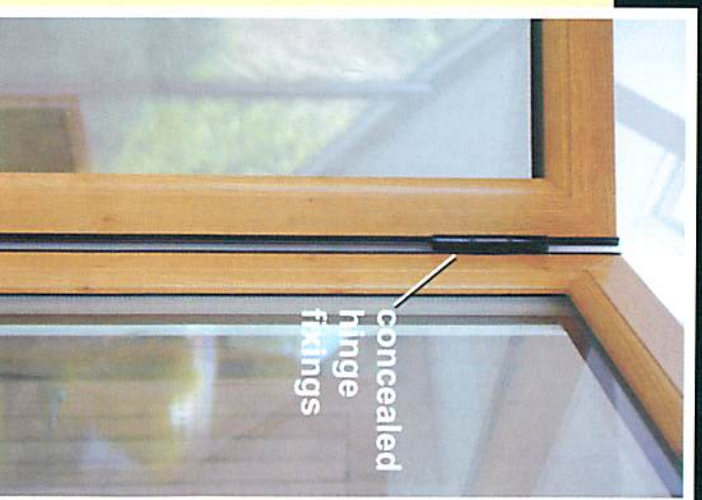

standard white PVC-U profile plus light oak & rosewood woodgrains also available.

Timberlook Slimline Bi-Fold Doors are available in a choice of woodgrain colours which look just as good as timber.

- **Timberlook Slimline Bi-Fold Doors** have high performance double seals to every door and thermally efficient double glazing with a 'u' value of 1.16.
- **Timberlook Slimline Bi-Fold Doors** have encapsulated stainless steel rollers into the aluminium top and bottom track to prevent the doors being lifted off the track.

concealed hinge fixings

MATCHING PROFILE & COLOURS ARE AVAILABLE FOR CONSERVATORIES & WINDOWS

Colours only as close as the printing process allows - The manufacturer reserves the right to change product & specification as technical developments dictate without notice
